

# Wire Thrive Fund II

Striving towards planetary balance

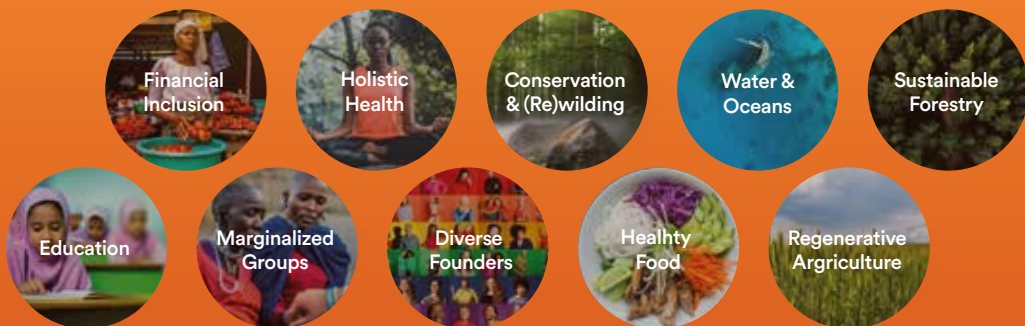

**Theory of transformation** With Wire Thrive Fund II, we strive towards restoring planetary balance, so that life on earth can thrive. We will do so by investing in funds that contribute to Human Healing and Ecosystem Healing. This translates into combining social equity and nature inclusive investing. This second fund builds on our experience of Wire Private Markets Fund I, and our ability to create a diversified portfolio of the world's leading impact funds.
